The sea, a zone of exchange and freedom

Recent years have seen peace and stability recede in the face of war on land and at sea. New conflicts have emerged and antagonisms have deepened.

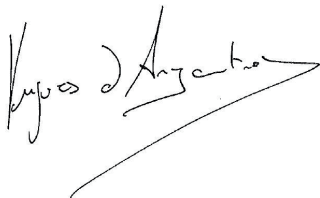

Once a zone of exchange and freedom, the sea has now again become a place of cupidity and conflict, where desires for power and claims to sovereignty are expressed.

Navies are faced with the need to make strategic and tactical adjustments to their technical and human resources in response to a disturbing and ever-changing geopolitical environment.

*EURONAVAL will be held from **4th to 7th November 2024** for the first time at the Paris-Nord Villepinte exhibition centre. Its objective is to give all navies, whatever their size and geographical and geopolitical location, the opportunity to discover the best ways of ensuring the defence of their national interests and participating, at their own level, in maintaining peace and security at sea and from the sea.*

EURONAVAL, the world's leading naval defence exhibition, will welcome industrial companies and representatives of navies and security forces from all five continents. Join us there!

Managing Director

**NEW LOCATION:
PARIS-NORD
VILLEPINTE**

In 2024, due to Olympic and Paralympic Games in Paris, EURONAVAL will be held from 4 to 7 November at the Parc des Expositions de PARIS-NORD VILLEPINTE, HALL 6.
